

Pupil premium strategy statement 2024-2025

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

| Detail | Data |
|-----------------------------------------------------------------------------------------------------------------|-------------------------------------|
| School name | St Adrian's Catholic Primary School |
| Number of pupils in school | 209 |
| Proportion (%) of pupil premium eligible pupils | 24 pupils = 11.4% |
| Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended) | May 2024 - July 2027 |
| Date this statement was published | May 2024 |
| Date on which it will be reviewed | July 2027 |
| Statement authorised by | Aideen Porter, Headteacher |
| Pupil premium lead | Aideen Porter, Headteacher |
| Governor / Trustee lead | Alison Brown |

Funding overview

| Detail | Amount |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| Pupil premium funding allocation this academic year | £25290 |
| Recovery premium funding allocation this academic year | £0 |
| Pupil premium funding carried forward from previous years (enter £0 if not applicable) | £0 |
| Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year | £25290 |

Part A: Pupil premium strategy plan

Statement of intent

St. Adrian's is a one-form entry primary school in St Albans. 11% children are recorded as Disadvantaged Pupils as they are eligible for pupil premium funding, compared to the National figure of 24%.

9 % of these identified pupils have special educational needs. Although these factors can present significant challenges, we have high expectations of all our children and are committed to ensuring that every child is given the best opportunities to enjoy and succeed at school. We want all our children to reach their full potential and become confident, independent, life-long learners with a love of reading.

Our intent is for disadvantaged pupils to develop the skills of Early Reading to become fluent readers with outcomes at least in line with their non-disadvantaged peers. Disadvantaged pupils should leave primary school attaining at the expected standards in reading at least in line with their non-disadvantaged peers. Disadvantaged pupils' oral skills and vocabulary should enable them to make good progress across the whole curriculum.

High quality teaching is essential to support disadvantaged pupils in meeting these objectives. We use our Pupil Premium to support the development of teachers to teach high quality phonics and reading skills, especially for pupils at the stages of early reading.

Teachers are supported to develop high quality teaching of oral skills and vocabulary. Where disadvantaged pupils need additional support, our Pupil Premium enables small groups and 1:1 intervention and tuition for these pupils to make the most progress.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

| Challenge number | Detail of challenge |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Despite targeted provision throughout the academic year 2023-2024, there are some existing disparities in academic attainment and progress were exacerbated during this period. The gap between PPG and non-PPG widened in some key academic areas reading, writing and mathematics, moving from half a term behind their peers to approximately a term behind. The challenge is to ensure that teachers are skilled in using formative assessments and able to make reasonable adjustments to their planning to ensure the accelerated progress of all vulnerable groups. |
| 2 | Careful monitoring of levels of pupil engagement by teachers, and overseen by SLT, provided evidence of low levels of engagement from a higher proportion of disadvantaged pupils at St Adrian's than non-disadvantaged pupils. |
| 3 | School attendance data over time shows persistently lower levels of attendance amongst our disadvantaged cohort compared to their non-disadvantaged peers. Seven out of the 22 pupils were classified as |

| | |
|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | persistent absentees whilst another seven out of the 22 pupils had attendance of below 95%. Attendance continues to be an issue for schools nationally. |
| 4 | Observations of and discussions with disadvantaged pupils in addition to analysis of behaviour records indicate that poor learning behaviour in some of our disadvantaged pupils acts as a barrier to their learning and progress. |
| 5 | Parental engagement can be lower among some of our disadvantaged pupils. For example: poor attendance at SEND reviews, parental consultations, performances, joining celebrations of learning and other school events. PPG pupils have been seen to be less likely to complete their homework activities and update Reading Records. In general, some parents of disadvantaged pupils play a less active role in the education of their children than non-disadvantaged pupils. |
| 6 | Over a quarter (29%) of our disadvantaged pupils are currently in receipt of external support for emotional deficits or family support. The cost of living crisis is significantly impacting families' ability to pay for extra curricular activities such as school trips, swimming and enrichment clubs. Family concerns, medical needs and parenting issues play a significant role in these cases and have impacted upon achievement over the short, medium and longer term as progress data for these pupils show. |

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

| Intended outcome | Success criteria |
|---------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| To diminish the difference between the attainment and progress of disadvantaged pupils and their peers. | Individual disadvantaged pupils will have made at least expected progress from their starting points. Some disadvantaged pupils will have made better than expected progress. Where a disadvantaged pupil has SEND, they will have made expected progress against their learning plan. |
| To diminish the difference between the attendance of disadvantaged pupils and their peers. | The attendance of disadvantaged pupils, with historic attendance of 95% or below will improve to match that of the non disadvantaged pupils. Pupils with significant barriers to attendance (I.e. below 80%) will have received individual attendance support leading to a significant improvement in their attendance. |
| More pupils from disadvantaged families accessing trips, workshops and clubs. | Disadvantaged pupils will have all trips and workshops paid for therefore we are eliminating the economic exclusion and enabling all children to have access. |
| More active engagement with the parents from families of disadvantaged pupils | All parents of disadvantaged pupils will attend SEND reviews and parent consultations. Parent surveys will provide evidence of increased engagement by parents of disadvantaged pupils. |
| Support the emotional development of disadvantaged pupils | Mentoring sessions will show that pupils are more confident members of the school community. This in turn will lead to better outcomes in attendance, engagement, attainment and progress. |

Activity in this academic and Financial) year - Starting from May 2024 onwards

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost:£ 300

| Activity | Evidence that supports this approach | Challenge number(s) addressed |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
| ELSA Support and nurture groups and training (£300) | EEF Recognizes the following: Importance of SEL 'Social and emotional skills' are essential for children's development— they support effective learning and are linked to positive outcomes in later life. With the right support, children learn to articulate and manage their emotions, deal with conflict, solve problems, understand things from another person's perspective, and communicate in appropriate ways. | 1 |
| Updating resources to add to the Purchase of a DfE validated Systematic Synthetic Phonics programme 'Little Wandle' to secure stronger phonics teaching for all pupils. | Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils: Phonics Toolkit Strand Education Endowment Foundation EEF | 1 |

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £ 13434

| Activity | Evidence that supports this approach | Challenge number(s) addressed |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
| Small group teaching – maths (£2700 Mr Silver Maths booster Year 6) | Tuition targeted at specific needs and knowledge gaps can be an effective method to support low attaining pupils or those falling behind, both one-to-one: One to one tuition EEF (educationendowmentfoundation.org.uk) And in small groups: Small group tuition Toolkit Strand Education Endowment Foundation EEF | 1, 2, 4 |

| | | |
|------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| | | |
| Small group teaching of phonics / writing (PPG Tutor 47 days @ £220 = 10,340) (23 weeks - 4 afternoons) | Phonics approaches have a strong evidence base indicating a positive impact on pupils, particularly from disadvantaged backgrounds. Targeted phonics interventions have been shown to be more effective when delivered as regular sessions over a period up to 12 weeks: Phonics Toolkit Strand Education Endowment Foundation EEF | 1, 4 |
| Dynamo Maths (£394) | Resources to support children | 1,4 |

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 11600

| Activity | Evidence that supports this approach | Challenge number(s) addressed |
|-------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|
| Grow Therapeutic (£3200- summer term only - will move to in house in Sept 2024) | SLT and staff discussions to put forward individual pupils who require extra emotional and pastoral support in order to moderate behaviour and develop coping mechanism. EEF Recognizes the following: Importance of SEL 'Social and emotional skills' are essential for children's development— they support effective learning and are linked to positive outcomes in later life. With the right support, children learn to articulate and manage their emotions, deal with conflict, solve problems, understand things from another person's perspective, and communicate in appropriate ways. | 2, 3, 4, 6 |
| Family support workers (£2000) | The EEF recognises in their, Working with Parents to Support Children's Learning guidance that sometimes more structured, evidence-based programmes are required to help to develop positive behaviour and consistency where needs are greater. Using a school partnership organisation provides access to professionals who are able to complete Family First Assessments and coordinate | 3, 5, 6 |

| | | |
|--------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| | support that draws on all the expertise available from different agencies. It also enables them to support the family holistically rather than focusing on educational elements in isolation. | |
| Subsidising of curriculum enrichment trips etc (£1400- £60 per child per year) | Importance of enrichment clubs (Arts) Importance of enrichment clubs (sports) | |
| Subsidising of curriculum enrichment clubs etc (£5000 - 1 year of enrichment club for 22 pupils) | Importance of enrichment clubs (Arts) Importance of enrichment clubs (sports) | |

Total budgeted cost: £25,334

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2022 to 2023 academic year.

From the end of the financial year - May 2024

There continues to be a difference in attainment between PPG and non-PPG. This is impacted by the proportionally higher number of SEND / EAL or traveller pupils within the groups (6 out of 22). Most PPG pupils have made expected progress from their starting points. Attendance for PPG so far this academic year is 91.7%

2023-2024- PPG Attainment - Up to Spring term

Reading - 72.7%, Writing 68.2%, Maths 68.1%

2023-2024- NON PPG Attainment - Up to Spring term

Reading - 80.3%, Writing 72.7 %, Maths 78.1%

Nationally as of May 7th 2024 the attendance for pupils eligible for PPG was 91.7%. Nationally average attendance of PPG on 7th May was 92% . The national average attendance for all pupils is 94.3 % This shows that our PPG pupils are in school on average inline with other ppg pupils nationally but slightly below the national average.

6 ppg pupils are currently monitored on a weekly basis as they are 6 out of our 18 persistent absentees. The senior leader regularly monitored attendance and contacted parents to notify of meetings and also strategies to encourage children in. The main reason for poor attendance is noted as illness.

Externally provided programmes

| Programme | Provider |
|--------------------------------------------|------------------|
| Primary Maths Series | White Rose Maths |
| Little Wandle - Letters and Sounds Revised | Big Cat Collins |

Further information (optional)

Whole school commitment to the culture of common good in our community.

“The common good is more like a multiplication sum, where if any one number is zero then the total is always zero.”

We have utilised relationships with catholic agencies to provide targeted financial support for disadvantaged families at points of crisis.

Our Inclusion Team structure has been developed to provide a widening of our net in terms of identifying and supporting the needs of pupils in our school. Difficulties as a result of disadvantage often manifests in a variety of different ways from poor attendance, poor behaviour, poor mental health, low attainment and achievement or the need for early help from a safeguarding perspective. Our inclusion team provides a place for the leads in each of these areas to come together and share their knowledge and understanding of individual pupils and their needs which results in earlier identification and a holistic, joined up approach to providing support.

Ongoing work around British Values through whole school assemblies and activities led by pupil groups in school provide consistent messages about tolerance, respect and participation in the wider life of the school. Disadvantaged pupils are routinely encouraged to participate in these activities.

Growth mindset has also been – and continues to be - promoted in school to build resilience and raise aspirations of all pupils including disadvantaged pupils.

All disadvantaged pupils have a personalised provision map that tracks all provision - academic, pastoral, family support and any extracurricular support. Additionally, we have worked extensively with external agencies including: school nursing, the Hertfordshire attendance team, St Albans Vista Plus, Children’s Services and other teams within ISL (Integrated Services for Learning) to support disadvantaged pupils

As part of our stance on EEE(Eliminating Economic Exclusion) we have allocated a higher proportion of the PPG money to pay for all the trips of those PPG students from this financial year.

We also offer the children the opportunity to attend 1 club for the whole year.
